What makes AdVENTURE unique?

- **AdVENTURE's Vision** is to be a school that provides students with the foundation for lifelong learning and resiliency, adept in the use of critical thinking tools and 21st century skills.
- **A Small Learning Community**—264 students and 10 teachers.
- **Integrated Instruction** built around math, science, engineering and technology within a small learning community to enhance communication and critical thinking.
- **Project-Based Learning** students apply their learning to intellectually challenging tasks and products.
- **Elective Offerings** variety of electives with a STEM focus.
- **Collaborative Environment** - Students are challenged to work in groups. They gain skills in leadership, communication, and public speaking.
